

Employee Onboarding Management System – Software Requirements Specification (SRS)

Hello Musa,

I've prepared a concise and structured BRD outlining the complete functional and operational scope for the Employee Onboarding Management System.

The document covers key onboarding modules including employee registration, document management, compliance checks, task workflows, notifications, dashboards, and audit controls, presented in a clear and well-defined manner.

Each section explains:

- The onboarding workflows and system behavior
- Role-wise access and responsibilities
- Key rules, validations, and process controls
- Expected outcomes for onboarding efficiency and reporting

The objective of this document is to ensure we are fully aligned on the **scope** before proceeding with **commercial discussions and development**.

Please review the document at your convenience. If any points are missing or require adjustment, feel free to share your inputs so we can finalize the scope smoothly.

1. Introduction

1.1 Purpose

This document serves as the **Software Requirements Specification (SRS)** for the **Employee Onboarding Management System**. It defines the functional, business, and operational requirements for developing a centralized digital platform to manage employee onboarding processes efficiently, securely, and compliantly.

The document ensures alignment between business stakeholders, product owners, and development teams before implementation.

1.2 Objectives

- Digitize and standardize the employee onboarding process
- Reduce manual HR effort and paperwork
- Ensure timely completion of onboarding activities
- Maintain compliance with organizational policies and legal requirements
- Provide real-time visibility of onboarding progress
- Improve new hire experience through guided onboarding workflows

1.3 Stakeholders

he system will be accessed and managed by the following internal stakeholders:

- Admin (Super Admin) – System owner and controller
- HR / Onboarding Manager – Manages onboarding workflows and compliance
- Hiring Manager – Tracks onboarding progress for assigned employees
- New Employee – Completes onboarding tasks and submissions

No external users or additional stakeholder roles are part of this system.

2. User Roles & Access Control

2.1 Admin (Super Admin)

Permissions:

- Full system access
- Create and manage user roles
- Configure onboarding workflows and rules
- Approve or override onboarding steps
- View all onboarding data and reports
- Access audit logs and system settings

2.2 Recruiter

Permissions:

- Create employee onboarding profiles
- Assign onboarding workflows
- Review and verify submitted documents
- Track onboarding progress
- Communicate with employees via system notifications

Restrictions:

- No access to system configuration or audit logs

2.3 Hiring Manager

Permissions:

- View onboarding status of assigned employees
- Provide approvals for role-specific tasks
- Receive notifications on delays or completion

Restrictions:

- Cannot edit employee personal data
 - Cannot approve compliance documents
-

2.4 Employee (New Hire)

Permissions:

- Access personal onboarding dashboard
- Submit personal information and documents
- Complete assigned onboarding tasks
- View onboarding status

Restrictions:

- No access to other employees' data
 - No modification after final submission without HR approval
-

3. Login & Security

- Role-based authentication
-

- Secure login with encrypted passwords
- Session timeout and secure session handling
- Access limited based on role permissions

Audit logs capturing:

- User actions
 - Date and time
 - Module and record affected
-

4. Master Management Modules

4.1 Employee Master

Employee Information:

- Employee ID
- Full Name
- Email Address
- Mobile Number
- Date of Birth
- Address
- Joining Date
- Designation
- Department
- Employment Type (Permanent / Contract)
- Reporting Manager

Features:

- Mandatory field validation
 - Editable before onboarding completion
 - Status tracking (Initiated / In Progress / Completed)
-

4.2 Onboarding Workflow Master

- Workflow Name
- Applicable Role / Department

- Number of Steps
- Mandatory vs Optional tasks
- Timeline configuration

(Admin configurable and centrally managed)

4.3 Document Master

- Document Type
 - Mandatory / Optional
 - Valid file formats
 - Size limits
-

5. Onboarding Module

5.1 Onboarding Initiation

- HR creates onboarding record for new employee
 - System sends onboarding invitation email
 - Employee account auto-created
-

5.2 Task Management

- Step-by-step onboarding checklist
 - Task categories:
 - Personal information
 - Document upload
 - Policy acknowledgment
 - Training modules
 - Progress indicator (percentage-based)
-

5.3 Document Upload & Verification

- Employee uploads required documents
 - HR verifies documents
 - Status:
-

- Pending
 - Approved
 - Rejected (with remarks)
-

6. Policy & Compliance Module

- Upload company policies
 - Mandatory policy acknowledgment
 - Digital consent capture
 - Timestamped acceptance records
-

7. Notification & Alert Module

7.1 System Notifications

The system shall generate automated notifications to ensure timely onboarding completion.

Notification Types:

- Onboarding initiation email
- pending task reminders
- Document rejection alerts
- Onboarding completion confirmation

Recipients:

- Employee
 - HR / Onboarding Manager
 - Hiring Manager (where applicable)
-

8. Dashboard & Tracking

8.1 HR Dashboard

- Total onboardings initiated
 - In-progress onboardings
 - Completed onboardings
-

- Delayed tasks
 - Document verification status
-

8.2 Employee Dashboard

- Task checklist
 - Progress percentage
 - Pending actions
 - Notifications and messages
-

9. Reports & Filters Module

9.1 Filters

- Department-wise
 - Role-wise
 - Joining date-wise
 - Status-wise
-

9.2 Reports

- Onboarding status report
- Pending task report
- Document verification report
- Completion timeline report

Export formats:

- Excel
 - PDF
-

10. Audit & Logs

- User activity tracking
 - Task completion logs
 - Document verification history
-

- Policy acceptance logs
-

11. Non-Functional Requirements

11.1 Performance

- Page load time < 3 seconds
- Supports concurrent users

11.2 Security

- Data encryption at rest and in transit
- Role-based access control
- Secure document storage

11.3 Availability

- 99.5% uptime
 - Regular backups
-

12. System Features

- Mobile-responsive UI
 - Email notifications
 - Excel and PDF exports
 - Role-based dashboards
 - Scalable architecture
-

13. Success Metrics

- 90% onboarding completion before joining date
- Reduced HR manual effort
- Improved employee onboarding satisfaction
